Monday	Tuesday	Wednesday	Thursday	Friday
		<p>1 Under the Load Observed a person walk underneath a load in the air.</p>	<p>2 Eyes Down, Risk Up Saw a customer's employee walking up the stairs while scrolling on his phone.</p>	<p>3 Make it Work Employee removed the handle of grinder to access tight area.</p>
<p>6 Seen vs. Unseen New hire employee was working in close area to all terrain forklift!</p>	<p>7 Still in Service Employee got a come a long out of tool crib and it had a broken hoot latch.</p>	<p>8 Before You Touch It An customer maintenance trainee attempted to work on a pump without locking it out.</p>	<p>9 Don't Cross It Contractor crossed our red tape without permission. Contractor was standing under suspended load.</p>	<p>10 Exposed Extension cord was damaged exposing wiring. Stopped employee from using it and tagged it out of service.</p>
<p>13 What's Left Behind When we removed the guards around the dryers the remaining anchor bolts became trip hazards.</p>	<p>14 Wear It Right Employee was not wearing seat belt in telehandler.</p>	<p>15 Right in the Walkway Electrical contractor wrapped SRL at 45 degree angle to handrail leaving it in the line of fire in walkway at throat height.</p>	<p>16 Make Eye Contact An employee was backing up on a forklift while another employee was walking behind him.</p>	<p>17 Not Meant for That While moving a fuel tank the chokers were put on the forks instead of using the JIB for the forklift.</p>
<p>20 Sitting on Safety Employee was driving forklift truck with seatbelt unde rhim instead of on.</p>	<p>21 Before the First Step Employee was drilling holes in the wall, started to get on the ladder and relized he wasn't tied off - stopped and got his fall protection on.</p>	<p>22 Before the Spark A crew started working without a hot work permit.</p>	<p>23 Not Built for That Using a step ladder against the wall like an extension ladder.</p>	<p>24 No Line Drawn Chipping down a wall and there wasn't barricade tape up..</p>
<p>27 Just this Once Observed a contractor attempting to work above 4ft with no fall protection. I asked the contractor to stop and use fall protection.</p>	<p>28 Right Below It A worker walked through were we were hoisting stuff up for painting</p>	<p>29 Not There When You Need It No Fire Extinguishers present</p>	<p>30 Don't Touch It Employee touched a moving roller.</p>
